

SureStep™ Drug Screen Test

Be confident... Be definite... Be sure

The SureStep™ Drug Screen Tests are simple, one-step tests for the detection of drugs of abuse in urine. SureStep™ Drug Screen Tests feature single and multiple panel tests which can test up to 9 drugs simultaneously - from a single urine sample - providing rapid, accurate and reliable results in just 5 minutes.

SureStep™ Drug Screen Tests require minimal training to use and has an inbuilt procedural control to show that the test has been performed correctly.
